

JOHN DEERE 9R SERIES TRACTOR STALK STOMPER INSTALLATION

Safety Recommendations:

Prior to installation, removal or maintenance of May Wes Stalk Stompers, park tractor on level ground and lock the brakes. In addition, please follow all safety recommendations listed in the OEM owner's manual.

Installation:

- 1) Hold mount bracket #41995 up to the front right side of tractor frame matching the hole pattern in the bracket to existing hole locations in the tractor frame. Attach mount bracket to tractor using supplied 7/8" hardware.
- 2) Hold mount bracket #41996 up to the left right side of tractor frame matching the hole pattern in the bracket to existing hole locations in the tractor frame. Attach mount bracket to tractor using supplied 7/8" hardware.
- 3) Proceed to mounting the Lift Arm Assemblies using 3/4" hardware supplied with mount kit and instructions provided with each Lift Arm Kit.
- 4) Reference page 2 for Stalk Stomper positioning and mounting using the 1/2" hardware supplied with mount kit.

* All orientation references are from the operators position.

NOTES:

 Graphics are for reference only and do not represent final assembled height.
